EDUCATION

Graphic Era Hill University | Bachelor of Technology(B.tech) in Computer Science Dehradun | **2019-present**

Beersheba Sen. Sec. School | Intermediate(12th) in PCM

Nainital | **2018**

SKILLS

Programming Languages: C, Java, SQL
Frontend Development: Html, CSS, JavaScript, ReactJs, Tailwind CSS, Bootstrap, NextJs
Course Outcomes: Basics Fundamentals of DSA, Computer Networking, DBMS

PROJECTS

My Portfolio | *ReactJs, Sass* |

- Developed a polished portfolio website highlighting skills and accomplishments through diverse sections. Check it out here: ssdportfolio.netlify.app
- Crafted an intuitive contact form with validation to facilitate seamless communication, designed responsively for all devices
- Sustained up-to-date representation of latest learning and achievements through consistent updates.

YouTube Clone | *ReactJs, Tailwind CSS, Rapid API* |

- Single Page Application that fetches data from YouTube API via Rapid API.
- Implemented powerful search functionality that offers relevant suggestions based on the current video. Open: youtubeclone.com
- Demonstrated my expertise in web development and API integration while designing a user-friendly interface for browsing and watching videos.

Let's Chat | *ReactJs, Sass, Firebase* |

- Engineered chat app, a secure and confidential web application intended for real-time interaction among users. Try it: chat.app
- Enabled dynamic and responsive interfaces to promote overall smooth experience.
- Leveraged Firebase technology to manage and store real-time data and communication.

NextBook | *Machine Learning, python, flask, Html, CSS, jupyter* |

- Created a book recommendation system utilizing Collaborative and Popularity-based algorithms by leveraging ML techniques to analyse user preferences and provide personalized recommendations. Link: nextbook.github.com
- Optimized system performance to guarantee seamless and efficient recommendation results.
